Report of Principal and School Improvement Council

We believe one of the major reasons for our success is our effective use of technology to support standards-based instruction. Our math teachers are able to plan lessons and coordinate them with the laboratory assistants. This has resulted in steady increases in student achievement as measured by both the EOC examinations and the Exit Exam. Our teachers and lab technicians attend the same staff-development activities, which promotes further collaboration and mutual understanding of both the content and cognitive levels of the standards and indicators addressed. Open lines of communication are the key elements in this process. The mutual respect between teachers and lab techs creates a positive environment for our students.

Our students continue to excel in both reading and writing. We believe that the collaboration and scaffolding that takes place among the reading and English teachers plays a major role in our students' success. Because we are a 7-12 school, our high school teachers are able to plan and coordinate with our middle school teachers. This assists in preparing our middle school students for the rigor of high school courses. Teachers meet regularly as a 7-12 staff. Once again, our teachers' ability to deliver standards-based instruction plays a key role in student achievement.

This year Cross High School received several awards and recognitions. We were again named a Palmetto Gold/Silver Showcase School. We first received this honor in 2006-2007. For the first time in the history of the school, we have been named as U.S. News and World Report Best High School Bronze Medal winner. This is a significant indicator that Cross High School is a major factor in closing the achievement gap among students.

The nurturing and caring environment that our teachers foster for our students plays a large role in our success. Teachers know each student on a personal level and have a profound understanding of the individual needs of the students. Teachers have high expectations for our students and therefore have high expectations of themselves in terms of creating a positive learning environment and delivering high quality instruction on a daily basis.
